Kadmon to Present 12-Month Data from Pivotal Trial of Belumosudil for cGVHD at the 62nd ASH Annual Meeting

November 4, 2020

NEW YORK, NY / ACCESSWIRE / November 4, 2020 / Kadmon Holdings, Inc. (NASDAQ:KDMN) announced today that 12-month data from ROCKstar (KD025-213), the ongoing pivotal trial of belumosudil (KD025) for the treatment of chronic graft-versus-host disease (cGVHD), have been selected for oral presentation at the 62nd American Society of Hematology (ASH) Annual Meeting, taking place virtually December 5 - 8, 2020.

The presentation will include 12-month efficacy and safety data and key secondary endpoints including duration of response, Failure-Free Survival, steroid dose reductions and quality-of-life improvements.

As previously announced, belumosudil met the primary endpoint of ROCKstar, the fully enrolled pivotal trial in cGVHD patients who have received at least two prior lines of systemic therapy. On September 30, 2020, the Company submitted a New Drug Application (NDA) to the U.S. Food and Drug Administration (FDA) for belumosudil for the treatment of patients with cGVHD.

Details of the presentation are as follows:

**ROCKstar (KD025-213) Oral Presentation**

**Title:** Belumosudil for Chronic Graft-Versus-Host Disease (cGVHD) after 2 or More Prior Lines of Therapy: The ROCKstar Study (KD025-213)

**Presenter:** Corey Cutler, MD, MPH, FRCPC, Dana-Farber Cancer Institute

**Session:** 722. Clinical Allogeneic Transplantation: Acute and Chronic GVHD, Immune

**Date & Time:** Sunday, December 6, 2020, 9:30am - 11:00am PT

**Abstract #:** 353

The accepted abstract is now available online at www.hematology.org. The oral presentation will include updated data not available in the abstract.

About ROCKstar

ROCKstar (KD025-213) is an ongoing open-label trial of belumosudil in patients with cGVHD who have received at least two prior lines of systemic therapy. Patients were randomized to receive belumosudil 200 mg once daily or 200 mg twice daily, enrolling 66 patients per arm. The primary endpoint of the study is Overall Response Rate (ORR). The ORR endpoint was met at the interim analysis, conducted two months after completion of enrollment. At the study's primary analysis, conducted six months after completion of enrollment, belumosudil achieved ORRs of 73% and 74% in the respective arms. Belumosudil has been well tolerated and adverse events have been consistent with those expected in the patient population.

About Belumosudil

Belumosudil (KD025) is a selective oral inhibitor of Rho-associated coiled-coil kinase 2 (ROCK2), a signaling pathway that modulates inflammatory response and pro-fibrotic processes. Kadmon has submitted an NDA to the U.S. FDA for belumosudil for the treatment of patients with cGVHD and the NDA is being reviewed under the FDA's RTOR pilot program. The FDA has granted Breakthrough Therapy Designation to belumosudil for the treatment of patients with cGVHD after failure of two or more lines of systemic therapy. The FDA has also granted Orphan Drug Designation to belumosudil for the treatment of cGVHD.

About cGVHD

cGVHD is a common and often fatal complication following hematopoietic stem cell transplantation. In cGVHD, transplanted immune cells (graft) attack the patient's cells (host), leading to inflammation and fibrosis in multiple tissues, including skin, mouth, eye, joints, liver, lung, esophagus and gastrointestinal tract. Approximately 14,000 patients in the United States are currently living with cGVHD.

About Kadmon

Kadmon is a clinical-stage biopharmaceutical company that discovers, develops and delivers transformative therapies for unmet medical needs. Our clinical pipeline includes treatments for immune and fibrotic diseases as well as immuno-oncology therapies.

Forward Looking Statements

This press release contains forward-looking statements. Such statements may be preceded by the words "may," "will," "should," "expects," "plans," "anticipates," "could," "intends," "targets," "projects," "contemplates," "believes," "estimates," "predicts," "potential" or "continue" or the negative of these terms or other similar expressions. Forward-looking statements involve known and unknown risks, uncertainties and other important factors that may cause our actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. We believe that these factors include, but are not limited to, (i) the initiation, timing, progress and results of our preclinical studies and clinical trials, and our research and development programs; (ii) our ability to advance product candidates into, and successfully complete, clinical trials; (iii) the impact of the COVID-19 pandemic on our business, workforce, patients, collaborators and suppliers, including delays in anticipated timelines and milestones of our clinical trials and on various government agencies who we interact with and/or are governed by; (iv) our reliance on the success of our product candidates; (v) the timing or likelihood of regulatory filings and approvals, especially in light of the COVID-19 pandemic; (vi) our ability to expand our sales and marketing capabilities; (vii) the implementation of our business
model, strategic plans for our business, product candidates and technology; (ix) the scope of protection we are able to establish and maintain for intellectual property rights covering our product candidates and technology; (x) our ability to operate our business without infringing the intellectual property rights and proprietary technology of third parties; (xi) costs associated with defending intellectual property infringement, product liability and other claims; (xii) regulatory developments in the United States, Europe, and other jurisdictions; (xiii) estimates of our expenses, future revenues, capital requirements and our needs for additional financing; (xiv) the potential benefits of strategic collaboration agreements and our ability to enter into strategic arrangements; (xv) our ability to maintain and establish collaborations; (xvi) the rate and degree of market acceptance of our product candidates, if approved; (xvii) developments relating to our competitors and our industry, including competing therapies; (xviii) our ability to effectively manage our anticipated growth; (xix) our ability to attract and retain qualified employees and key personnel; (xx) our expected use of cash and cash equivalents and other sources of liquidity; (xxi) the potential benefits of any of our product candidates being granted orphan drug designation; (xxii) the future trading price of the shares of our common stock and impact of securities analysts' reports on these prices; (xxiii) our ability to apply unused federal and state net operating loss carryforwards against future taxable income; (xxiv) timing of our listing on Nasdaq; and/or (xxv) other risks and uncertainties. More detailed information about the Company and the risk factors that may affect the realization of forward-looking statements is set forth in the Company's filings with the U.S. Securities and Exchange Commission (the "SEC"), including Kadmon's Annual Report on Form 10-K for the fiscal year ended December 31, 2019. Investors and security holders are urged to read these documents free of charge on the SEC's website at www.sec.gov. The Company assumes no obligation to publicly update or revise its forward-looking statements as a result of new information, future events or otherwise.
